**Facilities Mexico: A New Facilities Conference & Exposition to Collocate
with Expo Seguridad Four Events to Create Comprehensive Trade Fair
for Mexico's Built Environment**

April 20-22, 2010, Centro Banamex, Mexico City

MILWAUKEE - August 4, 2009 - Trade Press Media Group, Inc. and ROC Exhibitions, owners/producers of NFMT and Facility Decisions Expo have formed an agreement with Giprex U.S., producers of *Expo Seguridad*, to create and collocate *Facilities Mexico* with this important event in 2010 and beyond.

Additionally, *Expo Safety Mexico*, a Giprex event and *Mexico Fire & Safety*, a show produced by ROC-NFPA LLC will take place during the same three days, April 20-22, 2010, at Centro Banamex in Mexico City.

Together these four events will bring together virtually every product and service needed to design, secure, operate and manage a building or installation of any kind - be it a Mexico City high-rise office building, a government complex, a medical facility or university.

"This is the formula for successful international trade events we see more of every year," explains Marc Rosenstock, President of ROC Exhibitions. "By bringing several like-minded, compatible groups together in the same venue it tends to increase ROI for exhibitors, who will see a broader audience of prospective buyers, while giving attendees exposure to a wide spectrum of products and technologies that can help them on the job."

"By leveraging the success of bringing buyers and sellers together at our NFMT Conference/Expo each spring in Baltimore, we believe we can help facilitate business development and growth in Mexico for our many exhibitor customers," said Bob Wisniewski, President & CEO of Trade Press Media Group, Inc.

A combined audience of 15,000 is expected to participate in the conference programs and exhibitions staged at Centro Banamex over the three-day affair. Building owners, facilities managers, designers, security professionals, fire protection and safety experts

will all see the latest products, services, and technologies offered by an international mix of industry suppliers.

For information exhibiting or presenting in the conference program at Facilities Mexico, contact Todd Kotlarek at 414-228-7701 Ext: 577 or send an e-mail to todd.kotlarek@tradepress.com.
